## INTRODUCTION

Interest in rare species has increased substantially over the past 40 years, and currently there is broad support for the conservation of rare plants and animals in North America. Natural resource managers, policy makers, and the public require an understanding of the identity, distribution, and abundance of rare species in order to develop effective conservation strategies. Such information is especially vital to management plans that strive to integrate the conservation of rare species with development of natural resources.

This publication provides the most complete information available on the status of rare vertebrate species and vascular plant species in Wyoming. It updates and replaces previous lists (Fertig and Beauvais 1999, Fertig and Heidel 2002), and documents 473 plants and 125 vertebrates of conservation and management concern in Wyoming. For each species, a summary of factors used in weighing species' status including distribution, abundance, trends, and intrinsic vulnerability, is also provided.

The Wyoming Natural Diversity Database (WYNDD) at the University of Wyoming serves as the information clearinghouse on species of concern in Wyoming. Professional biologists at WYNDD conduct primary field research, literature reviews, and information summaries to maintain a comprehensive database of information on rare plants and animals. Readers are encouraged to help in this effort and improve this list by submitting data on rare species to WYNDD. Rare species observation forms are included in this publication, and are also posted at [[www.uwyo.edu/wyndd](http://www.uwyo.edu/wyndd)].

*This document, supporting information, and staff contacts are available at: [www.uwyo.edu/wyndd](http://www.uwyo.edu/wyndd)  
All parties are encouraged to contact WYNDD with comments, new data, or requests for the most current status information.*

## CHANGES FROM PREVIOUS LISTS

The ranks, statuses, and known distributions of rare species are dynamic due to ongoing research and re-examination of existing data. Differences in these items relative to previous lists reflect WYNDD's ongoing efforts to maintain comprehensive and current information. New species added since 1999 (animals) or 2002 (plants), and any changes in ranks, counties, or managed areas, are indicated in bold. Brackets enclosing species names indicate recent synonyms.

The animal portion of this list represents a major improvement over previous versions. It employs a more systematic and replicable ranking procedure, which is explained in detail in Keinath and Beauvais (2003). A

similar ranking procedure was employed in the 2002 plant list (Fertig and Heidel 2002) with minor revisions in this 2003 application.

The enclosed animal and plant lists introduce the Wyoming Contribution Rank, which provides more precise information on how Wyoming populations of a given taxon contribute to the rangewide persistence of that taxon. Details of this ranking system are in Keinath and Beauvais (2003) and Fertig and Heidel (2003).

The list format has been changed to provide readers with more species-specific information while still maintaining a concise layout. For each species we have included information on range context, abundance, vulnerability, and other factors that contribute to the status ranks. We also provide a more complete listing of species' statuses as determined by other organizations. For example, we now denote which species have been recently petitioned for listing under the Endangered Species Act.

Both the plant and animal lists are organized into a series of sub-lists:

**Species of Concern:** These are taxa that WYNDD has determined to be of conservation concern within the state of Wyoming. These taxa exhibit a combination of biological factors that predispose them to decline or potential extirpation from the state. Many of these taxa are also given special statuses by federal and state agencies.

**Species of Potential Concern:** These are taxa for which there is some evidence suggesting a moderate degree conservation concern, including species that are locally common but occupy a restricted range that is vulnerable to landscape changes. For animals, this list also includes species for which basic biological information is anecdotal, incomplete, or otherwise lacking in the detail needed for a reliable assessment and ranking. Also, some animals on this list may also have taxonomic questions yet to be resolved. WYNDD often collects data opportunistically for species of potential concern, but focuses most of its efforts on species of known concern.

**Species of Uncertain Status:** These are plant taxa that may warrant conservation attention but for which there are substantial questions regarding taxonomy, identification, or continued occurrence in the state.

**Dropped:** These taxa appeared on previous Species of Concern or Species of Potential Concern Lists, but have been dropped from this 2003 version. Taxa are usually dropped when new data or re-examination of older data indicates a lessening in their degree of conservation concern.

## CODES AND DEFINITIONS

**Heritage Rank:** WYNDD uses a standardized ranking system originally developed by The Nature Conservancy and its network of natural heritage programs (now coordinated by NatureServe [Arlington, Virginia]) to indicate the probability of extinction, at both the global and state scales, of each plant and animal taxon. The following letters denote the spatial scale at which a taxon's status is scored :

- G = Global rank: refers to the range-wide probability of extinction for a species
- T = Trinomial rank: refers to the range-wide probability of extinction for a subspecies or variety
- S = State rank: refers to probability of extinction from WY for a given taxon

These letters are each followed by a numeric, 1-5 score:

- 1 = Critically imperiled because of extreme rarity (often <5 extant occurrences) or because some factor makes it highly vulnerable to extinction
- 2 = Imperiled because of rarity (often 6-20 extant occurrences) or because of factors making it vulnerable to extinction
- 3 = Rare or local throughout its range or found locally in a restricted range (often 21-100 known occurrences)
- 4 = Apparently secure, although it may be quite rare in parts of its range, especially at the periphery
- 5 = Demonstrably secure, although it may be rare in parts of its range, especially at the periphery

Some taxa receive non-numeric scores, indicating special situations:

- H = Known only from historical records (typically pre-1970; varies by taxon)
- A = Accidental or vagrant: taxon appears irregularly and infrequently; *typically applied only to animals*
- X = Believed to be extinct
- U = Uncertain status: taxon possibly in peril but more information is needed

Some taxa may also receive rank modifiers, indicating other special situations:

- B = Breeding rank: indicates the status of a migratory species during the breeding season; *applied only to animals*
- N = Non-breeding rank: indicates the status of a migratory species during the non-breeding season; *applied only to animals*

Z = Rank not applicable: indicates that a migratory species is essentially absent or unrankable for the season in question (used with "B" or "N"); *applied only to animals*

Q = Questions exist regarding the taxonomic validity of a species, subspecies, or variety

? = Questions exist regarding the assigned numeric score

**Wyoming Contribution Rank:** WYNDD has developed a ranking system that indicates the contribution of WY populations of a taxon to the rangewide persistence of that taxon.

Very High = WY populations contribute greatly to the taxon's rangewide persistence. Typically applies to native, resident taxa with small continental ranges that are centered on WY

High = In combination with populations in adjacent states, WY populations contribute substantially to the taxon's rangewide persistence. Typically applies to native, resident taxa that are more secure in WY than elsewhere and have a moderate proportion of their continental range in WY

Medium = WY populations contribute to the taxon's rangewide persistence, but are apparently no more critical than populations in other states. Typically applies to native, resident taxa that are as secure in WY as elsewhere and have a moderate proportion of their continental range in WY

Low = WY populations contribute minimally to the taxon's rangewide persistence. Typically applies to taxa that are more prevalent and secure in other states, and occur only intermittently or peripherally in WY

## Federal Status:

US Fish and Wildlife Service (USFWS): The Endangered Species Act of 1973 directs the USFWS to identify and protect rare plants and animals. The following categories are currently used to rank listed and candidate species. The candidate system was revised in 1996, eliminating the old categories of C2 and 3C.

Endangered: In danger of extinction. For plants this applies to all of a taxon's range; for animals this may apply to only a portion of a taxon's range

Threatened: Likely to become Endangered in the near future. For plants this applies to all of a taxon's range; for animals this may apply to only a portion of a taxon's range

Proposed De-list: Formally proposed for de-listing from Endangered or Threatened status; awaiting final rule

Proposed: Formally proposed for listing as Endangered or Threatened; awaiting final rule

Candidate (formerly C1): Existing biological information supports a formal proposal to list as Endangered or Threatened, but developing a listing regulation is precluded by higher priority listing activities.

Recent De-list: Recently de-listed from Endangered or Threatened status

Listing Denied: A formal proposal for listing as Endangered or Threatened was recently denied

Petitioned: A petition to list as Endangered or Threatened has been received by USFWS; awaiting USFWS review

USDA Forest Service (USFS): USFS has adopted policies to ensure that agency actions do not drive rare taxa towards listing as Threatened or Endangered under the Endangered Species Act.

USFS Region 2 and Region 4 have developed lists of "Sensitive Species" that warrant special attention on USFS lands (USDA FS 1991, 1994, 2003). Sensitive species are defined as "plant and animal species identified by the Regional Forester for which population viability is a concern as evidenced by: (a) significant current or predicted downward trends in population numbers or density, and/or (b) significant current or predicted downward trends in habitat capability that would reduce a species' existing distribution." Sensitive species are usually designated for an entire region, but independent "Forest Sensitive" lists are maintained by some individual National Forests. The following codes are used to represent sensitive species designations by USFS:

USFS R2 Sensitive: Sensitive in Bighorn, Black Hills, Medicine Bow, and Shoshone National Forests, and the Thunder Basin National Grassland

USFS R4 Sensitive: Sensitive in Bridger-Teton, Caribou, Targhee, Wasatch-Cache, and Ashley (including Flaming Gorge National Recreation Area) National Forests

USDI Bureau of Land Management (BLM): BLM has adopted policies to ensure that agency actions do not drive rare taxa towards listing as Threatened or Endangered under the Endangered Species Act.

The BLM Wyoming State Office has established a list of "Sensitive Species" warranting special attention on BLM lands (USDI BLM 2001, 2002). BLM Sensitive species are "species that could easily become endangered or extinct in the state", including (a) species under status review by the FWS/ National Marine and Fisheries Service, (b) species whose numbers are declining so rapidly that Federal listing may become necessary, (c) species with typically small or fragmented populations, and (d) species inhabiting specialized refugia or other unique habitats. The following code is used to represent sensitive species designations by BLM:

WY BLM Sensitive: Sensitive in all Wyoming BLM Field Offices

**State Status:** *The text below applies only to animals. At this time there is no system used by the state of WY to indicate the status of rare native plants.*

Wyoming Game and Fish Department (WGF): The WGF uses a 1-4 "Native Species Status" score to rank the status of vertebrate species:

NSS1 = Populations greatly restricted or declining, extirpation possible -OR- Ongoing significant loss of habitat

NSS2 = Populations declining, extirpation possible; habitat restricted or vulnerable but no recent or ongoing significant loss; species likely sensitive to human disturbance -OR- Populations declining or restricted in numbers or distribution, extirpation not imminent; ongoing significant loss of habitat

NSS3 = Populations greatly restricted or declining, extirpation possible; habitat not restricted, vulnerable but no loss; species not sensitive to human disturbance -OR- Populations declining or restricted in numbers or distribution, extirpation not imminent; habitat restricted or vulnerable but no recent or ongoing significant loss; species likely sensitive to human disturbance -OR- Species widely distributed; population status or trends unknown but suspected to be stable; on-going significant loss of habitat

NSS4 = Populations greatly restricted or declining, extirpation possible; habitat stable and not restricted -OR- Populations declining or restricted in numbers or distribution, extirpation not imminent; habitat not restricted, vulnerable but no loss; species not sensitive to human disturbance -OR- Species widely distributed, population status or trends unknown but suspected to be stable; habitat restricted or vulnerable but no recent or on-going significant loss; species likely sensitive to human disturbance -OR-

Populations stable or increasing and not restricted in numbers or distribution; on-going significant loss of habitat

**County:** WY counties in which rare species occur. Vague or unsubstantiated county records are indicated by “?”. County names in brackets indicate former range of now extinct taxa. Records for Yellowstone Nat’l Park are listed by Park or Teton County.

ALB	Albany	NAT	Natrona
BIG	Big Horn	NIO	Niobrara
CAM	Campbell	PAR	Park
CAR	Carbon	PLA	Platte
CON	Converse	SHE	Sheridan
CRO	Crook	SUB	Sublette
FRE	Fremont	SWE	Sweetwater
GOS	Goshen	TET	Teton
HOT	Hot Springs	UIN	Uinta
JOH	Johnson	WAS	Washakie
LAR	Laramie	WES	Weston
LIN	Lincoln		

**Managed Area :** Codes show federal and state managed areas in which rare plants are known to occur. Blank entries indicate that a species is known only from other state or privately owned lands. Vague or unsubstantiated records are indicated by “?”. Codes are as follows:

AFB =	Air Force Base
BLM =	Bureau of Land Management
NF =	National Forest
NG =	National Grassland
NHS =	National Historic Site
NM =	National Monument
NP =	National Park
NRA =	National Recreation Area
NWR =	National Wildlife Refuge
SP =	State Park

In addition, records reported from Wind River Indian Reservation are indicated by:

IR =	Indian Reservation
------	--------------------

**Range context:** The extent and position of a taxon’s continental range relative to WY.

Local endemic: continental range is no larger (approx.) than Natrona Co., WY (72 X 72 mi)

Regional endemic: continental range is no larger (approx.) than the state of WY

Widespread: continental range is much larger than the state of WY

Core: WY encompasses >50% of the continental range

Edge: WY encompasses <50% of the continental range

Disjunct: WY populations are widely isolated (by about 300 mi or more) from the main, contiguous portion of the continental range

**Number of Occurrences:** Number of extant (documented since 1970) and discrete reproductive populations of a rare plant in WY.

Very Low	= 1-5 occurrences
Low	= 6-20 occurrences
Moderate	= 21-75 occurrences
High	= >75 occurrences
Unknown	

**Abundance:** Number of individuals, or area of occupied habitat, of a rare plant in WY.

Rare = <5000 individuals or <500 occupied ac.

Uncommon = 5000-50000 individuals or 500-5000 occupied ac.

Unknown

**Trend:** Change in number of individuals, occurrences, or area of occupied habitat. *Historical* refers roughly to the period 1850 - 1950. *Recent* generally refers to the period since 1950.

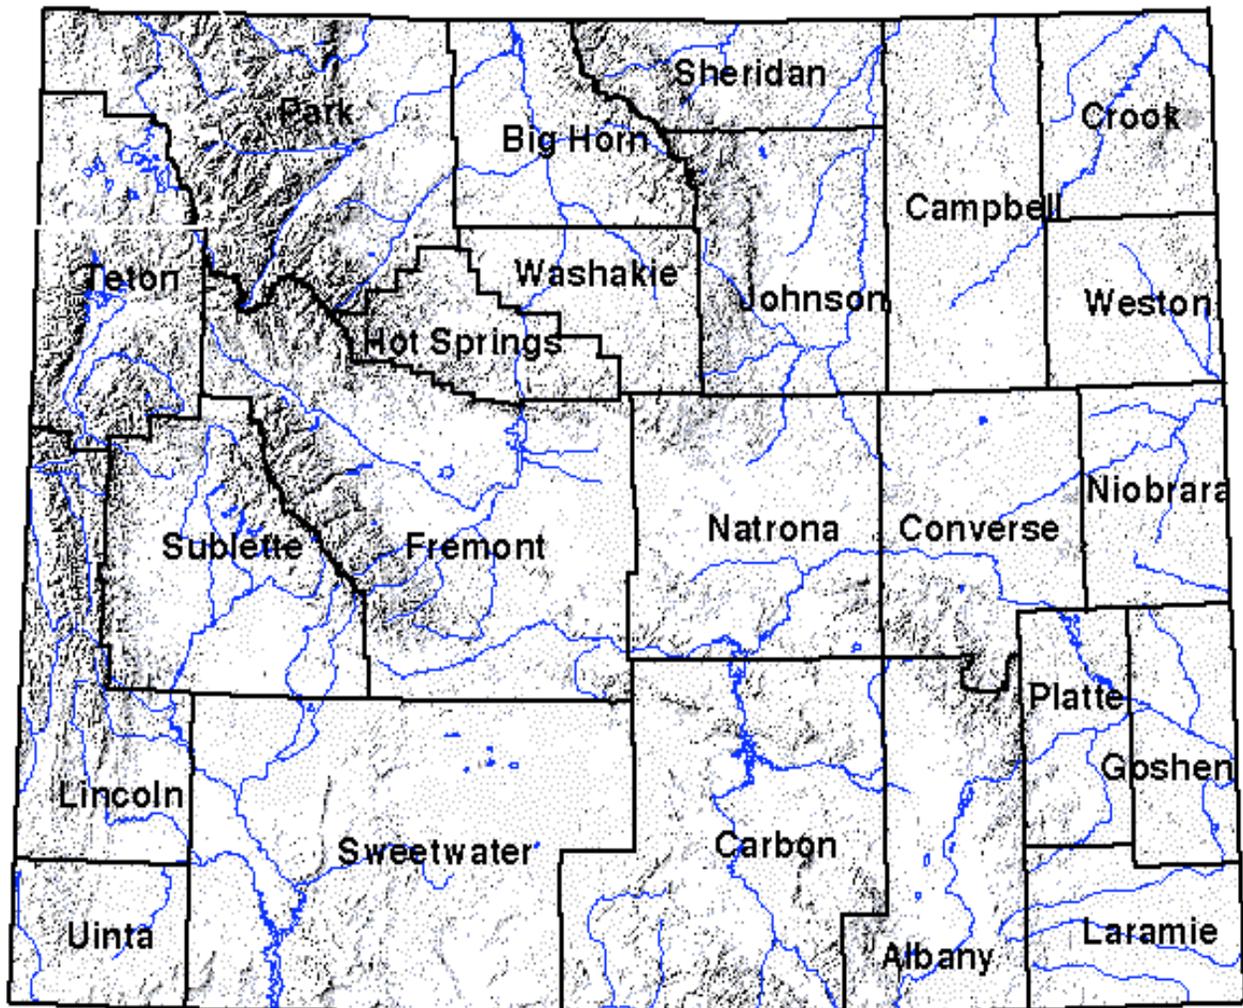

Large decline = >50% decline in numbers, occurrences, or area

Moderate decline = <50% decline in numbers, occurrences, or area

Stable = no substantial decline or increase

Increase = any substantial increase in individuals, occurrences, or area

Unknown

**Intrinsic Vulnerability:** The susceptibility of a taxon to decline due to inherent biological factors. Such factors include fecundity, population density, dispersal ability, pollinator limitations, competitive ability, likelihood of hybridization, and habitat specialization. Intrinsic vulnerability is scored with an emphasis on conditions in Wyoming that may represent a subset of rangewide conditions.

High = Taxon restricted to 1 rare habitat type -OR- exhibits at least 2 of the following characteristics: very low population density, very low dispersal ability, very low fecundity, pollinator limitations, predisposition to disease

Moderate = Taxon restricted to 2-4 habitat types -OR- exhibits at least 1 of the following characteristics: very low population density, very low dispersal ability, very low fecundity, pollinator limitations, predisposition to disease

Low = Taxon occurs in a variety of habitat types (usually all within 1 biome) -OR- has no life history traits that predisposes it to declines resulting from moderate environmental changes

#### ACKNOWLEDGEMENTS - PLANTS

Much of the original data for this report comes from specimens deposited at the Rocky Mountain Herbarium. Additional information and suggestions were provided over the course of this and previous list revisions by Larry Apple, Melanie Arnett, Darcie Bacon, Frank Blomquist, Bernie Bornong, Janet Britt, Greg Brown, Sabine Mellmann-Brown, Beth Burkhart, Jeff Carroll, Reed Crook, Jean Daly, Charmaine Delmatier, Robert and Jane Dorn, Katy Duffy, Erwin Evert, Walter Fertig, Ben Franklin, Jim Glennon, Wendy Haas, Ron Hartman, Don Hazlett, Pat and Noel Holmgren, Kent Houston, Kelly Hughes, Ann Humphrey, George Jones, Greg Karow, John Kartesz, Lynn Kinter, Andy Kratz, Clay Kyte, Steve Laster, Claire Leon, Michael Mancuso, Stuart Markow, Hollis Marriott, Jerry Mastel, Bob Moseley, Mary Neighbours, B. Ernie Nelson, Dave Ode, Kevin O'Dea, Jim Ozenberger, Barb Packer, John Proctor, Deana Reyher, Richard and Bev Scott, Phil Shephard, Carolyn Sieg, Susan Spackman, Gerry Steinauer, Amy Taylor, Laura Welp, Jennifer Whipple, and Kathy Zacharkevics.

## ACKNOWLEDGEMENTS - ANIMALS

Information and suggestions were provided over the course of list revision by Stan Anderson, Merav Ben-David, Jason Bennett, Frank Blomquist, Tim Byers, Steven Buskirk, Jeff Carroll, Andrea Cerovski, Darby Dark-Smiley, Robert Dorn, Eric Everett, Martin Grenier, Jeff Gruver, Greg Hayward, Mary Jennings, Laine Johnson, Steve Koslowski, Robert Luce, Larry Master, Matthew McGee, Carron Meaney, Bob Oakleaf, Deb Patla, Charles Peterson, Regan Plumb, Tom Rinkes, Brian Smith, Patricia Sweanor, Michelle VanVleet, and Jon Warder.

## ACKNOWLEDGEMENTS - ARTWORK

Columbian sharp-tailed grouse, Colorado River cutthroat trout, and Canada lynx by *Summers Scholl*.  
Yellow lady's-slipper by *Walter Fertig*.  
Desert yellowhead by *Jane Dorn*.

**Taxa Dropped From Previous Lists:** The following species have been dropped from the 2002 WYNDD list of plant species of special concern. Unless otherwise noted, all have been found to be more common in the state than previously recognized and are no longer considered vulnerable to extirpation.

*Adenocaulon bicolor*  
(American trailplant)  
*Agrimonia gryposepala*  
(Common agrimony)  
*Anemone virginiana*  
(Virginia anemone)  
*Antennaria neglecta*  
(Field pussytoes)  
*Astragalus nelsonianus*  
(Nelson's milkvetch; moved to potential spp. of concern list)  
*Carex paupercula*  
(Bog sedge)  
*Carex preslii*  
(Presl sedge; all specimens have been redetermined)  
*Cypripedium fasciculatum*  
(Clustered lady's-slipper; moved to potential spp. of concern list)  
*Elymus diversiglumis*  
(Interrupted wild-rye)  
*Epilobium oregonense*  
(Oregon willow-herb)  
*Juncus brevicaudatus*  
(Tweedy's rush)  
*Lonicera caerulea* var. *caurina*  
(Western honey-suckle)  
*Ostrya virginiana* var. *virginiana*  
(Hop-hornbeam)  
*Piptantherum pungens*  
(Slender mountain-ricegrass)  
*Solidago speciosa* var. *pallida*  
(Showy goldenrod)

**Status Uncertain:** This list includes species that may warrant conservation attention, but which are not currently listed due to uncertainties regarding taxonomy, identification, or confirmed occurrence in the state.

*Allium drummondii* (reported)  
*Alnus viridis* var. *crispa* (status not known)  
*Arabis fruticosa* (taxonomic questions)  
*Arnica amplexicaulis* (status not known)  
*Artemisia pattersonii* (reported)  
*Astragalus* undescribed species (status not known)  
*Botrychium boreale* (reported)  
*Botrychium hesperium* (reported)  
*Botrychium pinnatum* (reported)  
*Bouteloua eriopoda* (reported)  
*Callirhoe involucreta* (status not known)  
*Carex stenoptila* (identification problems)  
*Cirsium barnebyi* (reported)  
*Claytonia tuberosa* ssp. *rosea* (status not known)  
*Dichanthelium depauperatum* (reported)  
*Draba longipes* (reported)  
*Erigeron coulteri* (reported)  
*Erigeron pumilus* var. *gracilior* (taxonomic questions)  
*Eriogonum inflatum* (reported)  
*Festuca thurberi* (status not known)  
*Gayophytum decipiens* (identification problems)  
*Gentiana nutans* (taxonomic questions)  
*Gilia ophthalmoides* (taxonomic questions)  
*Hieracium fendleri* (status not known)  
*Hymenopappus filifolius* var. *megacephalus* (taxonomic questions)  
*Isoetes echinospora* (taxonomic questions)  
*Juncus articulatus* (status not known)  
*Lesquerella subumbellata* (reported)  
*Listera borealis* (status not known)  
*Lysichiton americanus* (reported)  
*Mertensia arizonica* (identification problems)  
*Mimulus tilingii* var. *tilingii* (status not known)  
*Muhlenbergia mexicana* (status not known)  
*Orthocarpus tenuifolius* (reported)  
*Oryzopsis canadensis* (reported)  
*Polystichum braunii* (reported)  
*Potamogeton epiphydrous* (status not known)  
*Potamogeton fibrillosus* (taxonomic questions)

*Ribes hirtellum* (reported)  
*Salix barclayi* (status not known)  
*Stephanomeria exigua* (reported)  
*Stipa thurberiana* (reported)  
*Telesonix jamesii* (reported)  
*Thalictrum revolutum* (taxonomic questions)  
*Utricularia ochroleuca* (reported, probably *U. intermedia*)

## Animal Species of Concern – BIRDS

Common Name (Scientific Name)	Heritage Rank	Heritage State Rank Reasons	WY Cont. Rank	Wyoming Contribution Rank Reasons	Federal and State Status	County of Occurrence
Common loon ( <i>Gavia immer</i> )	G5/S1B/S2N	Small WY Range. Low Range Occupation. Low Abundance. Moderate Biological Vulnerability. High External Threats. SN Rank based on migratory concerns.	High	Low portion of its range in Wyoming, Restricted continental distribution, and equal security in Wyoming relative to other areas.	USFS R4 Sensitive, WYGF NSS1	ALB, BIG, CAR, CRO, FRE, HOT, JOH, LIN, NAT, PAR, PLA, SHE, SUB, SWE, TET, UIN
Clark's grebe ( <i>Aechmophorus clarkii</i> [ <i>Aechmophorus occidentalis</i> ])	G5/S1B	Very Small WY Range. Low Range Occupation. Low Abundance. Uncertain Abundance Trends. Patchy Distribution.	High	Medium portion of its range in Wyoming, Restricted continental distribution, and Uncertain security in Wyoming relative to other areas.	WYGF NSS4	ALB, FRE, LIN, NAT, PAR, TET
American white pelican (Breeding colonies) ( <i>Pelecanus erythrorhynchos</i> )	G3/S1B	Small WY Range. Low Range Occupation. Low Abundance. Moderate Biological Vulnerability. High External Threats. Patchy Distribution.	High	Low portion of its range in Wyoming, Restricted continental distribution, and Uncertain security in Wyoming relative to other areas.	WYGF NSS3	ALB, CAR?, FRE?, NAT, PAR, TET
American bittern ( <i>Botaurus lentiginosus</i> )	G4/S3B	Large WY Range. Low Range Occupation. Low Abundance. Moderate Biological Vulnerability. Moderate External Threats.	Low	Low portion of its range in Wyoming, Wide continental distribution, and Uncertain security in Wyoming relative to other areas.	USFS R2 Sensitive, WYGF NSS3	ALB, BIG, CAR, CRO, FRE, GOS, LIN, PAR, SWE, TET, UIN
White-faced ibis ( <i>Plegadis chihi</i> )	G5/S1B	Very Small WY Range. Low Range Occupation. Low Abundance. Uncertain Abundance Trends. Moderate Biological Vulnerability. High External Threats. Patchy Distribution.	High	Low portion of its range in Wyoming, Restricted continental distribution, and Uncertain security in Wyoming relative to other areas.	Wyoming BLM Sensitive, WYGF NSS3	ALB, CAR, FRE, GOS, HOT, LAR, LIN, SUB, SWE, TET, UIN
Trumpeter swan ( <i>Cygnus buccinator</i> )	G4/S2	Moderate WY Range. Low Range Occupation. Low Abundance. High External Threats. Patchy Distribution.	High	Low portion of its range in Wyoming, Restricted continental distribution, and More security in Wyoming relative to other areas.	USFWS ESA Listing Denied, USFS R2 Sensitive, USFS R4 Sensitive, Wyoming BLM Sensitive, WYGF NSS2	CAR, FRE, LIN, NAT, PAR, SUB, SWE, TET
Harlequin duck ( <i>Histrionicus histrionicus</i> )	G4/S1B	Small WY Range. Low Range Occupation. Low Abundance. Uncertain Abundance Trends. Moderate Biological Vulnerability. High External Threats.	Low	Low portion of its range in Wyoming, Wide continental distribution, and Uncertain security in Wyoming relative to other areas.	USFS R2 Sensitive, USFS R4 Sensitive, WYGF NSS3	BIG?, FRE, HOT, LIN, PAR, SUB, TET
Bald eagle ( <i>Haliaeetus leucocephalus</i> )	G4/S3B/S5N	Moderate WY Range. Low Abundance.	Low	Low portion of its range in Wyoming, Wide continental distribution, and Uncertain security in Wyoming relative to other areas.	USFWS Threatened (proposed for de-listing), WYGF NSS2	ALB, BIG, CAM, CAR, CON, FRE, GOS, HOT, JOH, LAR, LIN, NAT, NIO, PAR, PLA, SHE, SUB, SWE, TET, UIN, WAS?
Northern goshawk ( <i>Accipiter gentilis</i> )	G5/S3	Moderate WY Range. Low Abundance. Moderate Biological Vulnerability. Moderate External Threats.	Low	Low portion of its range in Wyoming, Wide continental distribution, and Uncertain security in Wyoming relative to other areas.	USFWS ESA Listing Denied, USFS R2 Sensitive, USFS R4 Sensitive, Wyoming BLM Sensitive, WYGF NSS4	ALB, BIG, CAR, CRO, FRE, JOH, LAR, LIN, NAT, PAR, SHE, SUB, SWE, TET, UIN, WAS
Ferruginous hawk ( <i>Buteo regalis</i> )	G4/S4B/S5N	Large WY Range. Low Abundance. Moderate Biological Vulnerability. Moderate External Threats.	Low	Medium portion of its range in Wyoming, Wide continental distribution, and More security in Wyoming relative to other areas.	USFS R2 Sensitive, Wyoming BLM Sensitive, WYGF NSS3	all counties
American peregrine falcon ( <i>Falco peregrinus anatum</i> )	G4/T3/S2	Moderate WY Range. Low Range Occupation. Low Abundance. Moderate Biological Vulnerability. Moderate External Threats.	Low	Low portion of its range in Wyoming, Wide continental distribution, and Uncertain security in Wyoming relative to other areas.	Recently de-listed by USFWS, USFS R2 Sensitive, USFS R4 Sensitive, Wyoming BLM Sensitive, WYGF NSS3	ALB, CAR, JOH, PAR, SUB, SWE, TET

## Animal Species of Concern – BIRDS (continued)

Common Name (Scientific Name)	Heritage Rank	Heritage State Rank Reasons	WY Cont. Rank	Wyoming Contribution Rank Reasons	Federal and State Status	County of Occurrence
White-tailed ptarmigan ( <i>Lagopus leucurus</i> )	G5/S1	Very Small WY Range. Low Range Occupation. Low Abundance. Declining Abundance. Moderate Biological Vulnerability. High External Threats. Patchy Distribution.	High	Low portion of its range in Wyoming, Restricted continental distribution, and Less security in Wyoming relative to other areas.	USFS R2 Sensitive	ALB, CAR?, FRE?, LIN, PAR, SWE?, TET

USFS R2 Sensitive, Wyoming BLM Sensitive, WYGF NSS4	all counties
Columbia spotted frog [Spotted frog] (statewide) ( <i>Rana luteiventris</i> [ <i>Rana pretiosa</i> ])	G4/S3	Moderate WY Range. Low Range Occupation. Patchy Distribution.	High	Low portion of its range in Wyoming, Restricted continental distribution, and Uncertain security in Wyoming relative to other areas.	USFS R2 Sensitive, USFS R4 Sensitive, Wyoming BLM Sensitive, WYGF NSS5	FRE, LIN, PAR, SHE, SUB, TET
Wood frog (statewide) ( <i>Rana sylvatica</i> )	G5/S1	Small WY Range. Low Range Occupation. Uncertain Abundance Trends. Moderate Biological Vulnerability. Moderate External Threats.	High	Low portion of its range in Wyoming, Restricted continental distribution, and Uncertain security in Wyoming relative to other areas.	USFS R2 Sensitive, WYGF NSS3	ALB, BIG, CAR, JOH, SHE

## Species of Concern – REPTILES

Common Name (Scientific Name)	Heritage Rank	Heritage State Rank Reasons	WY Cont. Rank	Wyoming Contribution Rank Reasons	Federal and State Status	County of Occurrence
Ornate box turtle ( <i>Terrapene ornata ornata</i> )	G5/S1	Very Small WY Range. Low Range Occupation. Low Abundance. Uncertain Abundance Trends. Moderate Biological Vulnerability. Moderate External Threats.	Low	Low portion of its range in Wyoming, Wide continental distribution, and Uncertain security in Wyoming relative to other areas.		GOS
Six-lined racerunner [Prairie lined racerunner] ( <i>Cnemidophorus sexlineatus viridis</i> )	G5/S2	Very Small WY Range. Low Range Occupation. Low Abundance. Uncertain Abundance Trends.	Low	Low portion of its range in Wyoming, Wide continental distribution, and Uncertain security in Wyoming relative to other areas.		GOS?, PLA
Northern many-lined skink ( <i>Eumeces multivirgatus multivirgatus</i> )	G5/S1	Very Small WY Range. Low Range Occupation. Unknown Abundance and Trends. Regional Endemic.	High	Medium portion of its range in Wyoming, Restricted continental distribution, and Uncertain security in Wyoming relative to other areas.		GOS, LAR, NIO, PLA
Northern plateau lizard ( <i>Sceloporus undulatus elongatus</i> )	G5/T5/S1	Very Small WY Range. Low Range Occupation. Low Abundance. Moderate Biological Vulnerability. Moderate External Threats. Regional Endemic.	High	Low portion of its range in Wyoming, Restricted continental distribution, and Uncertain security in Wyoming relative to other areas.		CAR, SWE
Red-lipped prairie lizard [Orange-lipped plateau lizard] ( <i>Sceloporus undulatus erythrocheilus</i> )	G5/T5/S1	Very Small WY Range. Low Range Occupation. Low Abundance. Uncertain Abundance Trends. Moderate Biological Vulnerability. Moderate External Threats. Local Endemic.	High	Medium portion of its range in Wyoming, Restricted continental distribution, and Uncertain security in Wyoming relative to other areas.		ALB, CON, LAR?, PLA
Northern prairie lizard ( <i>Sceloporus undulatus garmani</i> )	G5/T5/S1	Very Small WY Range. Low Range Occupation. Moderate Biological Vulnerability. Moderate External Threats. Regional Endemic.	High	Low portion of its range in Wyoming, Restricted continental distribution, and Uncertain security in Wyoming relative to other areas.		GOS, LAR?, NIO?, PLA
Tree lizard ( <i>Urosaurus ornat us</i> )	G5/S2	Very Small WY Range. Low Abundance.	Low	Low portion of its range in Wyoming, Wide continental distribution, and Uncertain security in Wyoming relative to other areas.		SWE
Lesser earless lizard ( <i>Holbrookia maculata</i> )	G5/S2	Very Small WY Range. Low Range Occupation. Low Abundance.	Low	Low portion of its range in Wyoming, Wide continental distribution, and Less security in Wyoming relative to other areas.		GOS?, LAR, PLA
Rubber boa ( <i>Charina bottae</i> )	G5/S2	Small WY Range. Low Range Occupation. Low Abundance. Uncertain Abundance Trends.	Low	Low portion of its range in Wyoming, Wide continental distribution, and Uncertain security in Wyoming relative to other areas.		BIG?, FRE, LIN, PAR, SHE, SUB, TET, WAS
Smooth green snake (eastern and western) ( <i>Liochlorophis vernalis</i> [ <i>L.v. vernalis</i> , <i>L.v. blanchardi</i> ; <i>Opheodrys v. vernalis</i> , <i>O.v. blanchardi</i> ])	G5/S2	Small WY Range. Low Range Occupation. Uncertain Abundance Trends. Patchy Distribution.	High	Low portion of its range in Wyoming, Restricted continental distribution, and Uncertain security in Wyoming relative to other areas.		ALB, CAR, CON, CRO, NAT, WES
Black Hills redbelly snake ( <i>Storeria occipitomaculata pahasapae</i> )	G5/T3/S1	Very Small WY Range. Low Range Occupation. Low Abundance. Uncertain Abundance Trends. Moderate Biological Vulnerability. Moderate External Threats. Local Endemic.	Very High	High portion of its range in Wyoming, Restricted continental distribution, and Equal security in Wyoming relative to other areas.	USFS R2 Sensitive	CRO, WES?
Midget faded rattlesnake ( <i>Crotalus viridis concolor</i> )	G5/T3/S1	Very Small WY Range. Uncertain Abundance Trends. High External Threats. Regional Endemic.	High	Low portion of its range in Wyoming, Restricted continental distribution, and Uncertain security in Wyoming relative to other areas.	Wyoming BLM Sensitive	SWE

## Species of Concern – MAMMALS

Common Name (Scientific Name)	Heritage Rank	Heritage State Rank Reasons	WY Cont. Rank	Wyoming Contribution Rank Reasons	Federal and State Status	County of Occurrence
Hayden's shrew ( <i>Sorex haydeni</i> )	G4/S3	Small WY Range. Low Abundance. Uncertain Abundance Trends.	Low	Low portion of its range in Wyoming, Wide continental distribution, and Uncertain security in Wyoming relative to other areas.		ALB, CAR, CON, CRO, JOH, SHE, WES
Southern Rocky Mountain pygmy shrew ( <i>Sorex hoyi montanus</i> )	G7/S1	Very Small WY Range. Low Abundance. Uncertain Abundance Trends. Patchy Distribution.	Very High	High portion of its range in Wyoming, Restricted continental distribution, and Uncertain security in Wyoming relative to other areas.	USFS R2 Sensitive, WYGF NSS2	ALB, CAR
Preble's shrew ( <i>Sorex preblei</i> )	G4/S1	Very Small WY Range. Low Abundance. Uncertain Abundance Trends. Moderate Biological Vulnerability. Moderate External Threats.	Low	Medium portion of its range in Wyoming, Wide continental distribution, and Uncertain security in Wyoming relative to other areas.	WYGF NSS3	LIN, PAR?, TET, UIN
Fringed myotis (statewide) ( <i>Myotis thysanodes</i> )	G4G5/S2	Large WY Range. Low Range Occupation. Low Abundance. Uncertain Abundance Trends. Moderate Biological Vulnerability. Swift fox ( <i>Vulpes velox</i> )	G3/S2	Moderate WY Range. Low Range Occupation. Low Abundance. Moderate Biological Vulnerability. Moderate External Threats. Patchy Distribution.	High	Low portion of its range in Wyoming, Restricted continental distribution, and More security in Wyoming relative to other areas.	USFWS ESA Listing Denied, USFS R2 Sensitive, Wyoming BLM Sensitive, WYGF NSS3	ALB, CAM, CAR, CON, CRO?, FRE, GOS, JOH?, LAR, NAT, NIO, PLA, SWE, WES
Grizzly bear ( <i>Ursus arctos horribilis</i> )	G4/S1	Small WY Range. Low Abundance. Moderate Biological Vulnerability. Moderate External Threats. Patchy Dist.	Low	Low portion of its range in Wyoming, Wide continental distribution, and Equal security in Wyoming relative to other areas.	USFWS Threatened	FRE, PAR, SUB, TET
Fisher ( <i>Martes pennanti</i> )	G5/S1	Small WY Range. Low Range Occupation. Low Abundance. Moderate Biological Vulnerability. Moderate External Threats.	Low	Low portion of its range in Wyoming, Wide continental distribution, and Less security in Wyoming relative to other areas.	USFS R4 Sensitive	ALB?, CAR?, FRE?, JOH?, PAR, SUB, TET
Black-footed ferret ( <i>Mustela nigripes</i> )	G1/S1	Very Small WY Range. Low Range Occupation. Low Abundance. Declining Abundance. High Biological Vulnerability. High External Threats. Regional Endemic.	High	Medium portion of its range in Wyoming, Restricted continental distribution, and Less security in Wyoming relative to other areas.	USFWS Endangered, WYGF NSS1	ALB, CAR
North American Wolverine ( <i>Gulo gulo luscus</i> [ <i>Gulo luscus</i> ])	G4/S2	Moderate WY Range. Low Range Occupation. Low Abundance.	Low	Low portion of its range in Wyoming, Wide continental distribution, and Less security in Wyoming relative to other areas.	USFWS ESA Listing Denied, USFS R2 Sensitive, USFS R4 Sensitive, WYGF NSS3	ALB?, BIG?, CAR?, FRE, LIN, PAR, SHE?, SUB, TET
River otter ( <i>Lontra canadensis</i> [ <i>Lutra Canadensis</i> ])	G5/S3	Moderate WY Range. Low Range Occupation. Patchy Distribution.	Low	Low portion of its range in Wyoming, Wide continental distribution, and Uncertain security in Wyoming relative to other areas.	USFS R2 Sensitive	ALB, BIG?, CAR?, FRE, HOT?, JOH, LIN, NAT, PAR, SHE?, SUB, SWE, TET, UIN?
Canada lynx [North American lynx] ( <i>Lynx canadensis</i> [ <i>Felis lynx</i> ])	G5/S1	Small WY Range. Low Range Occupation. Low Abundance.	Low	Low portion of its range in Wyoming, Wide continental distribution, and Less security in Wyoming relative to other areas.	USFWS Threatened, WYGF NSS1	ALB?, BIG, CAR?, FRE, JOH, LIN, PAR, SHE, SUB, TET, UIN
American bison (Free-ranging herds) ( <i>Bos bison</i> [ <i>Bison bison</i> ])	G4/S1	Very Small WY Range. Low Abundance. Moderate Biological Vulnerability. Moderate External Threats. Patchy Distribution.	High	Medium portion of its range in Wyoming, Restricted continental distribution, and More security in Wyoming relative to other areas.	USFWS Petitioned for ESA listing (Yellowstone DPS)	PAR, TET

## Animal Species of Potential Concern – ALL TAXA

Please note that not all species on the potential concern list have been fully incorporated into the new ranking system. S-ranks given in square brackets (e.g., [S3B]) are carried over from the 1999 list and S-rank reasons in square brackets are from the range comments section of the 1999 list. A designation of Not Ranked (NR) in the Wyoming contribution rank columns means that these species have not yet been assigned a Wyoming contribution rank. All these fields will be updated in future lists, at which time decisions may be made to elevate or remove certain species from this list.

Common Name (Scientific Name)	Heritage Rank	Heritage State Rank Reasons	WY Cont. Rank	Wyoming Contribution Rank Reasons	Federal and State Status	County of Occurrence
<b>BIRDS</b>						
Least bittern ( <i>Ixobrychus exilis</i> )	G5/S1B	Very Small WY Range. Low Abundance. Uncertain Abundance Trends. Moderate Biological Vulnerability. Moderate External Threats.	Low	Accidental or occasional in Wyoming		ALB?
Snowy egret ( <i>Egretta thula</i> )	G5/[S3B]	[Breed: N periph.]	NR	NR	WYGF NSS3	ALB, CAR, FRE, GOS, HOT, JOH, LAR, LIN, NAT, PAR, SHE, SUB, SWE, TET, UIN
Black-crowned night-heron ( <i>Nycticorax nycticorax</i> )	G5/[S3B]	[Breed: interior periph.]	NR	NR	WYGF NSS3	all counties?
Ring-necked duck ( <i>Aythya collaris</i> )	G5/S4B	Moderate WY Range. Low Abundance.	Low	Low portion of its range in Wyoming, Wide continental distribution, and Equal security in Wyoming relative to other areas.		ALB, BIG, CAR, FRE, JOH, LIN?, NAT, PAR, SUB, TET, UIN
Bufflehead ( <i>Bucephala albeola</i> )	G5/S2B	Small WY Range. Low Range Occupation. Low Abundance. Uncertain Abundance Trends. High External Threats.	Low	Low portion of its range in Wyoming, Wide continental distribution, and Uncertain security in Wyoming relative to other areas.		CAR, FRE, JOH, LIN, NAT, PAR, SUB, SWE, TET, UIN
Tundra swan ( <i>Cygnus columbianus</i> )	G5/S2N	Uncertain WY Range.	Low	Accidental or occasional in Wyoming		all except NIO?
Common goldeneye ( <i>Bucephala clangula</i> )	G5/[S3B]	[Breed: S periph. Winter: core]	NR	NR		all except CRO, WES
Golden eagle ( <i>Aquila chrysaetos</i> )	G5/[S3B]	[Year-round: core]	NR	NR		all counties
Osprey ( <i>Pandion haliaetus</i> )	G5/[S3B]	[Breed: S periph.]	NR	NR		all counties
Merlin ( <i>Falco columbarius</i> )	G5/S4	Large WY Range. Low Abundance.	Low	Low portion of its range in Wyoming, Wide continental distribution, and Uncertain security in Wyoming relative to other areas.	WYGF NSS3	ALB, BIG, CAM, CAR, CON, CRO, FRE, HOT, JOH, LAR, LIN, NAT, PAR, SHE, SUB, SWE, TET, UIN, WAS, WES
Arctic peregrine falcon ( <i>Falco peregrinus tundrius</i> )	G4/T3/SU	Uncertain WY Range.	Low	Accidental or occasional in Wyoming	Recently de-listed by USFWS, Wyoming BLM Sensitive, WYGF NSS3	all counties?
Greater prairie-chicken ( <i>Tympanuchus cupido</i> )	G4/SA	Accidental. Low Range Occupation. Low Abundance. Uncertain Abundance Trends. High Biological Vulnerability. High External Threats. Regional Endemic.	Low	Accidental or occasional in Wyoming	USFS R2 Sensitive	LAR?

Uinta ground squirrel (Spermophilus amatus)	G5/[S3S4]	[Reg. endm.]	NR	NR		FRE, LIN, PAR, SUB, SWE, TET, UIN
Abert's squirrel (Sciurus aberti)	G5/S1	Very Small WY Range. Low Abundance. Uncertain Abundance Trends. Regional Endemic.	Low	Accidental or occasional in Wyoming		ALB, LAR
Red squirrel (Bighorn Mountain population) (Tamiasciurus hudsonicus (undescribed taxon))	G5/T3Q/S3	Very Small WY Range. Uncertain Abundance Trends. Local Endemic.	Very High	High portion of its range in Wyoming, Restricted continental distribution, and Equal security in Wyoming relative to other areas.		BIG?, JOH?, SHE?, WAS?
Northern flying squirrel (Black Hills population) (Glaucomys sabrinus (undescribed taxon))	G5/T2Q/S1	Very Small WY Range. Low Range Occupation. Low Abundance. Uncertain Abundance Trends. Moderate Biological Vulnerability. Moderate External Threats. Local Endemic.	Very High	High portion of its range in Wyoming, Restricted continental distribution, and Uncertain security in Wyoming relative to other areas.		CRO, WES
Olive-backed pocket mouse (Perognathus fasciatus)	G5/[S4]	[Core]	NR	NR	WYGF NSS3	ALB, BIG, CAR, CAM, CON, CRO?, FRE, GOS, HOT?, JOH, NAT, NIO, LAR, PAR?, PLA, SHE, SWE, WAS, WES?
White-footed mouse (Peromyscus leucopus)	G5/S3	Small WY Range. Low Range Occupation.	Low	Low portion of its range in Wyoming, Wide continental distribution, and Less security in Wyoming relative to other areas.		CAM, CRO, JOH?, NIO, SHE
Southern red-backed vole (Bighorn Mountain population) (Clethrionomys gapperi (undescribed taxon))	G5/T3Q/S3	Very Small WY Range. Uncertain Abundance Trends. Local Endemic.	Very High	High portion of its range in Wyoming, Restricted continental distribution, and Equal security in Wyoming relative to other areas.		BIG?, JOH?, SHE?, WAS?

## Species of Potential Concern – All Taxa (continued)

Common Name (Scientific Name)	Heritage Rank	Heritage State Rank Reasons	WY Cont. Rank	Wyoming Contribution Rank Reasons	Federal and State Status	County of Occurrence
Water vole (Bighorn Mountain population) ( <i>Microtus richardsoni</i> [ <i>Arvicola richardsoni</i> ] (undescribed taxon))	G5/T2Q/S1	Very Small WY Range. Low Range Occupation. Low Abundance. Moderate Biological Vulnerability. Moderate External Threats. Local Endemic.	Very High	High portion of its range in Wyoming, Restricted continental distribution, and Uncertain security in Wyoming relative to other areas.	USFS R2 Sensitive, WYGF NSS3	BIG, JOH, SHE, WAS
Native Rocky Mountain red fox ( <i>Vulpes vulpes macroura</i> )	G?/T1Q/S1	Small WY Range. Low Range Occupation. Low Abundance. Declining Abundance. Moderate Biological Vulnerability. High External Threats. Patchy Distribution.	High	Medium portion of its range in Wyoming, Restricted continental distribution, and Uncertain security in Wyoming relative to other areas.		ALB?, CAR?, FRE?, HOT?, LIN?, PAR?, SUB?, TET?, UIN?
Common gray fox ( <i>Urocyon cinereoargenteus</i> )	G5/S2	Small WY Range. Low Range Occupation. Low Abundance. Uncertain Abundance Trends. Moderate Biological Vulnerability. Moderate External Threats.	Low	Low portion of its range in Wyoming, Wide continental distribution, and Uncertain security in Wyoming relative to other areas.		CAM?, CON?, CRO?, GOS?, JOH?, NAT?, NIO?, PLA?, WES
Ringtail ( <i>Bassariscus astutus</i> )	G5/S1	Very Small WY Range. Low Range Occupation. Low Abundance. Uncertain Abundance Trends.	Low	Accidental or occasional in Wyoming		ALB, CAR?, LIN, SWE, UIN?
American marten [Pine marten] (Bighorn Mountain population) ( <i>Martes americana</i> (undescribed taxon))	G5/T2Q/S1	Very Small WY Range. Low Range Occupation. Low Abundance. Moderate Biological Vulnerability. Moderate External Threats. Local Endemic.	Very High	High portion of its range in Wyoming, Restricted continental distribution, and Equal security in Wyoming relative to other areas.	USFS R2 Sensitive	BIG, JOH, SHE, WAS
American marten [Pine marten] (Black Hills population) ( <i>Martes americana</i> (undescribed taxon))	G5/T2Q/S1	Reintroduced Taxon. Very Small WY Range. Low Range Occupation. Low Abundance. Moderate Biological Vulnerability. Moderate External Threats. Local Endemic.	High	Medium portion of its range in Wyoming, Restricted continental distribution, and Uncertain security in Wyoming relative to other areas.	USFS R2 Sensitive	CRO?, WES?
Least weasel ( <i>Mustela nivalis</i> [ <i>Mustela rixosa</i> ])	G5/S1	Very Small WY Range. Low Range Occupation. Low Abundance. Uncertain Abundance Trends. Moderate Biological Vulnerability. Moderate External Threats.	Low	Accidental or occasional in Wyoming	WYGF NSS3	CAM, JOH?, SHE
Plains (eastern) spotted skunk ( <i>Spilogale putorius interruptua</i> )	G5/T4/S3	Moderate WY Range. Low Range Occupation. Unknown Abundance. Uncertain Abundance Trends. Moderate Biological Vulnerability. Moderate External Threats.	Low	Low portion of its range in Wyoming, Wide continental distribution, and Uncertain security in Wyoming relative to other areas.		CAM?, CON?, CRO?, GOS?, JOH?, LAR?, NIO?, PLA?, SHE?, WES?
Bighorn sheep ( <i>Ovis canadensis</i> )	G4/[S3S4]	[Historic: core Extant: disjunct]	NR	NR		ALB, BIG, CAR, CON?, FRE, HOT, LIN, NAT?, PAR, SUB, TET, WAS?

## Species Dropped from Previous Lists – All Taxa

Common Name (Scientific Name)	Action Taken
Milk snake ( <i>Lampropeltis triangulum</i> )	Moved to Potential Concern List
Great Basin gopher snake ( <i>Pituophis catenifer deserticola</i> [P. melanoleucus deserticola] )	Moved to Potential Concern List
Ring-necked duck ( <i>Aythya collaris</i> )	Moved to Potential Concern List
Bufflehead ( <i>Bucephala albeola</i> )	Moved to Potential Concern List
Merlin ( <i>Falco colum barius</i> )	Moved to Potential Concern List
Arctic peregrine falcon ( <i>Falco peregrinus tundrius</i> )	Moved to Potential Concern List
Greater prairie-chicken ( <i>Tympanuchus cupido</i> )	Moved to Potential Concern List
Northern bobwhite (Native populations only) ( <i>Colinus virginianus</i> )	Moved to Potential Concern List
Piping plover ( <i>Charadrius melodus</i> )	Moved to Potential Concern List
Upland sandpiper ( <i>Bartramia longicauda</i> )	Dropped from Concern List
Wilson's phalarope ( <i>Phalaropus tricolor</i> )	Dropped from Concern List
Ring-billed gull (Breeding colonies only) ( <i>Larus delawarensis</i> )	Moved to Potential Concern List
Herring gull (Breeding colonies only) ( <i>Larus argentatus</i> )	Moved to Potential Concern List
Common tern ( <i>Sterna hirundo</i> )	Moved to Potential Concern List
Barn owl ( <i>Tyto alba</i> )	Moved to Potential Concern List
Western screech-owl ( <i>Otus kennicottii</i> )	Moved to Potential Concern List
Black-chinned hummingbird ( <i>Archilochus alexandri</i> )	Dropped from Concern List
Rufous hummingbird ( <i>Selasphorus rufus</i> )	Dropped from Concern List
Eastern phoebe ( <i>Sayornis phoebe</i> )	Moved to Potential Concern List
Hammond's flycatcher ( <i>Empidonax hammondi</i> )	Moved to Potential Concern List
Cassin's kingbird ( <i>Tyrannus vociferans</i> )	Dropped from Concern List
Winter wren ( <i>Troglodytes troglodytes</i> )	Moved to Potential Concern List
Golden-crowned kinglet ( <i>Regulus satrapa</i> )	Moved to Potential Concern List
Eastern bluebird ( <i>Sialia sialis</i> )	Moved to Potential Concern List
Townsend's warbler ( <i>Dendroica townsendi</i> )	Moved to Potential Concern List
Rose-breasted grosbeak ( <i>Pheucticus ludovicianus</i> )	Moved to Potential Concern List
Dickcissel ( <i>Spiza americana</i> )	Moved to Potential Concern List
Cassin's sparrow ( <i>Aimophila cassinii</i> )	Moved to Potential Concern List
Grasshopper sparrow ( <i>Ammodramus savannarum</i> )	Moved to Potential Concern List
Brewer's sparrow ( <i>Spizella breweri</i> )	Moved to Potential Concern List

Common Name (Scientific Name)	Action Taken
White-winged junco ( <i>Junco hyemalis aikeni</i> )	Moved to Potential Concern List
White-winged crossbill ( <i>Loxia leucoptera</i> )	Moved to Potential Concern List
Dwarf shrew ( <i>Sorex nanus</i> )	Moved to Potential Concern List
Eastern mole ( <i>Scalopus aquaticus</i> )	Moved to Potential Concern List
Long-eared myotis ( <i>Myotis evotis</i> )	Moved to Potential Concern List
Hoary bat ( <i>Lasiurus cinereus</i> )	Moved to Potential Concern List
Eastern cottontail ( <i>Sylvilagus floridanus</i> )	Moved to Potential Concern List
Spotted ground squirrel ( <i>Spermophilus spilosma</i> )	Dropped from Concern List
Northern flying squirrel (Black Hills population) ( <i>Glaucomys sabrinus</i> (undescribed taxon))	Moved to Potential Concern List
Abert's squirrel ( <i>Sciurus aberti</i> )	Moved to Potential Concern List
Plains pocket mouse ( <i>Perognathus flavescens</i> )	Dropped from Concern List
Silky pocket mouse ( <i>Perognathus flavus</i> )	Dropped from Concern List
Great Basin pocket mouse ( <i>Perognathus parvus</i> )	Dropped from Concern List
Hispid pocket mouse ( <i>Chaetodipus hispidus</i> [ <i>Perognathus hispidus</i> ])	Dropped from Concern List
Plains harvest mouse ( <i>Reithrodontomys montanus</i> )	Dropped from Concern List
White-footed mouse ( <i>Peromyscus leucopus</i> )	Moved to Potential Concern List
Water vole (Bighorn Mountain population) ( <i>Microtus richardsoni</i> [ <i>Arvicola richardsoni</i> ] (undescribed taxon))	Moved to Potential Concern List
Common gray fox ( <i>Urocyon cinereoargenteus</i> )	Moved to Potential Concern List
Ringtail ( <i>Bassariscus astutus</i> )	Moved to Potential Concern List
American marten [Pine marten] (Bighorn Mountain population) ( <i>Martes americana</i> (undescribed taxon))	Moved to Potential Concern List
Least weasel ( <i>Mustela nivalis</i> [ <i>Mustela rixosa</i> ])	Moved to Potential Concern List
Plains (eastern) spotted skunk ( <i>Spilogale putorius interruptua</i> )	Moved to Potential Concern List
Western spotted skunk ( <i>Spilogale gracilis</i> [ <i>Spilogale putorius</i> ])	Dropped from Concern List
Swainson's hawk ( <i>Buteo swainsoni</i> )	Dropped from Watch List
Prairie falcon ( <i>Falco mexicanus</i> )	Dropped from Watch List
Red-naped sapsucker ( <i>Sphyrapicus nuchalis</i> )	Dropped from Watch List
Willow flycatcher ( <i>Empidonax traillii</i> )	Dropped from Watch List
Cordilleran flycatcher [Western flycatcher] ( <i>Empidonax occidentalis</i> [ <i>Empidonax difficilis</i> ])	Dropped from Watch List
Marsh wren ( <i>Cistothorus palustris</i> )	Dropped from Watch List
Lark bunting ( <i>Calamospiza melanocorys</i> )	Dropped from Watch List
American marten [Pine marten] (statewide) ( <i>Martes americana</i> )	Dropped from Watch List
